

SPECTACULAR

NORTHWEST TERRITORIES

This is a land where nature still rules, where time stands still, where abundant, untamed waters run fast.

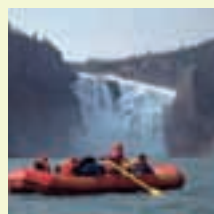

Spectacular Nahanni National Park Reserve is one of Canada's greatest natural treasures and was named as the first-ever UNESCO World Heritage Site. Here you can paddle the South Nahanni River, stand in the thunder of towering Virginia Falls, explore hidden caves, spot wilderness icons such

as moose, sheep, bears, and learn about the ghosts of haunted valleys. This big, bold dramatic land extends beyond the reserve to hidden mountain lakes, breathtaking plateaus, and the sheer cliffs of the Cirque of the Unclimbables.
