

WORLD CLASS FISHING ADVENTURES

Nonacho Lake Fishing Adventures is a remote fly-in only experience that offers world class Lake Trout and Northern Pike fishing. Beautiful Nonacho Lake and its sand esker beaches are situated just south of the East Arm of Great Slave Lake. Nonacho Lake is the 8th largest lake in the NWT. We are the only operators on the entire lake.

FISHING ADVENTURES

Book your next adventure by visiting
www.nonacho.com or call us at 1-888-652-8247.

Enjoy World Class Lake Trout and Northern Pike fishing, in the Spectacular Northwest Territories. Lake Trout between 20 lb. - 40 lb. are common with a lake record of 60lbs (near world record size). The lake abounds with Lake Trout in the 4 lb. - 10 lb. range. Pike are abundant and provide wild action out of the shallows.

INCLUDED IN YOUR PACKAGE

Transportation from Yellowknife airport to float base, flight from Yellowknife float base - Nonacho Lake return (via float plane), 16' Lund boats, 4 stroke Honda 25hp outboards, unlimited fuel, freezers, unlimited ice for coolers and drinks. Cabins come furnished with wood burning stoves, electric fridges, stoves with ovens, BBQ's, cooking utensils, bed linens and duvet covers, shower houses, daily fresh bath linens, and 24hr electricity.

ACCOMODATIONS

The six guest cabins are set back from the beautiful sand esker beach and can accommodate 4 - 8 guests. The popular "Honeymoon" cabin located over a hill is secluded with its own sandy beach & privacy. We are one of the longest standing Tourism Operators in the NWT with over 55 years of creating memories for a lifetime. Our family warmly invites you to experience the spectacular adventures of Nonacho Lake NWT.

ATTRACTIONS

The Spectacular Aurora Borealis come to life by mid-August and can be seen the way they were meant to be seen without any light saturation from nearby towns or cities. The Northern Lights can be observed from our over the water viewing deck. Wildlife abounds at Nonacho Lake and is now home to the majestic Muskox. Birding enthusiasts may find up to fifty species; many are in their northern breeding territory of the ABA area. See them all in a natural landscape seen by few humans.
