EXPLORE CANADA'S LARGEST NATIONAL PARK

Wood Buffalo National Park is a land of superlatives. Canada's biggest national park is home to some of the world's rarest and most impressive bird and animal species, including the only natural wild flock of whooping cranes on Earth, and giant wood bison, which commonly congregate along the highway to halt traffic. You will also find some of the world's best whitewater here, at Slave River Rapids, as well as our planet's largest dark sky preserve. Locals make the most of these attractions by hosting two must-see festivals—Slave River Paddlefest and the Thebacha and Wood Buffalo Dark Sky Festival, both held in August. But that's not all. There is a salt plain to discover, placid lakes and meandering rivers to canoe and countless backcountry trails to hike. You could spend a day, a weekend or weeks in Wood Buffalo National Park and still not see it all.
